COS 201 — Computer Programming I

Student Information

- Name: Johnathan Aliyah Yusuf
- Matriculation Number: 25/16257
- Department: Computer Science
- Level: 200 Level
- Course: COS 201
- Week: 2

Practical Title

Development Environment and First Java Program

Objective

To configure the Java development environment, write a simple Java program, compile it, execute it and submit the source code through GitHub.

Tools Used

- Java Development Kit (JDK)
- Visual Studio Code
- Git
- GitHub Desktop
- GitHub

Files

- `week02/HelloWorld.java`: Java source code for the practical. It prints a greeting, my student details, and the course, topic and goal for Week 2.

How to Run

The program is in the `week02` package, so run these commands from the main project folder (`COS201-Programming-I`):

1. Compile the program: `javac week02/HelloWorld.java`
2. Run the program: `java week02.HelloWorld`

Expected Output

```
Hello, World!
Welcome to COS 201.
I am learning Java programming.
```

```
STUDENT NAME: Johnathan Aliyah Yusuf
MATRIC NUMBER: 25/16257
DEPARTMENT: Computer Science
LEVEL: 200 Level
COURSE: COS 201
COURSE TITLE: Computer Programming I
WEEK: 2
TOPIC: Development Environment and Java
GOAL: To learn how to write Java programs.
```

Learning Outcome

I practised creating, compiling and running a Java program and submitting source code through GitHub.
